DOWN WITH THE NEW CZARS!

新ツァーを打倒せよ！

THE SAYINGS OF CHAIRMAN MAO TSE TUNG

Harassment, defeat, and again harassment and again defeat-- finally, downfall. This is the logical path of imperialism and all the reactionary groups of the world toward the work of the people. And they never go against this logical course.

The Soviet revisionism and U. S. imperialism conspired at many evil and shameful deeds, but the revolutionary people of the entire world would not give in. The people of every nation of the world are arising. A new history-making epoch of anti U. S. imperialism and the Soviet revisionism has already begun.

中国人民の偉大な指導者毛沢東主席

CHAIRMAN

MAO - THE GREAT LEADER OF THE PEOPLE OF CHINA

われわれの偉大な指導者毛主席とその親密な戦友林彪副主席

OUR GREAT LEADER, CHAIRMAN MAO,

WITH HIS VERY CLOSE COMRADE, VICE-CHAIRMAN LIN PIAO

DOWN WITH THE CZARS!

(The editorial of The People's Daily and The Liberation Army News, March 4, 1969).

On March 2, a group of Soviet revisionists and betrayers high-handedly mobilized their armed **troops** and invaded Zhenbao Island of the Wu Su Li River in our Hei Long Jiang Province. They opened fire on our Chinese Liberation Army Border Guards, and many personnel were reported killed and wounded. This is a very serious armed border dispute the Soviet revisionists provoked. This is a mad and violent anti-Chinese incident concocted by the Soviet revisionists. This is a new and major disclosure of the foxy nature of the Soviet revisionists' social imperialism. We, the people of China and the Liberation Army of China, are expressing here our indignation toward this most evil and cruel criminal deed of the group of betrayers and Soviet revisionists, and we are protesting most vehemently.

This very grave armed border provocation has been an incident the group of the Soviet revisionist betrayers pre-arranged and planned from the beginning to the end. Zhenbao Island belongs to the Chinese territory and the patrolling of our territory by our Border Guards personnel is our divine and sacred right. And yet, the Soviet revisionists dared to mobilize many armed soldiers, armored vehicles and trucks to invade our territory and they attacked our border patrols. Our Border Guards warned the Border Guards of the Soviet revisionists many times against it, but to no effect. The situation thus was unbearable and then there was no other choice left for our Border Guards personnel. It was unavoidable for them to counterattack as a means of self-defense. It was very proper disciplinary action for those who invaded our land, and it was a victorious defensive action for our divine and sacred territory. We, the entire people of the country and armed services personnel, express our very firm support for the heroic Border Guards who

defended the territory of our fatherland and our sovereignty and their rightful defense.

At the end of this important border incident, a group of the Soviet revisionist betrayers dared to twist the facts and they sent us what they called a "memorandum of protest". They, shamelessly, claimed Zenbao Island as their territory and said that the Chinese Border Guards "crossed the border line of the Soviet Union" and the Soviet revisionist Border Guards "guarding" Zenbao Island area represented a "provocated attack" by our Border Guards, or, something to that effect. This is entirely wild talk and a fabrication. Zenbao Island is Chinese territory and the truth is undebatable and firm with no room for quarrel. Even according to the unfair treaty, the Sino-Russian Treaty, which the imperial Czar Russia forced on the Chinese people in 1860, Zenbao Island area belongs to China. For many years, the area has been continuously under the control of China and our Border Guards have patrolled the area. How in the world one can say that the Zenbao Island suddenly has gone to the other side of the "border line of the Soviet Union?". How is it possible to say that this territory of China has become an area for the Soviet revisionist Border Guards to "guard"? It is very clear that the Soviet revisionist soldiers invaded Zenbao Island, the territory of China, and they attacked the Border Guards of China. But you (USSR) are twisting the facts by saying that it was the Chinese Border Guards who "provoked" the incident using the trite technique of a thief calling a non-thief a thief and calling white black, you are trying to conceal your crime of invasion; but such a thing is by no means possible.

The group of the Soviet revisionist betrayers are persistent and hostile toward the Chinese people. Especially, since the great and decisive victory of our proletarian cultural revolution, the group of Soviet revisionist betrayers have pushed their anti-China activities with hatred and fear. They not only furiously slandered and abused China, but they carried on extensive activities for overthrowing and destroying China. They concentrated their military forces along the border of China and Mongolia, along the Sino-Soviet border and constantly

invaded our territory and territorial sky. Provoking border clashes, they posed to our country a military threat. Also, together with American imperialism and with every other reactionary group, they try their utmost in forming an anti-China bloc. The invasion of our Zenbao Island by the group of Soviet revisionist betrayers and the clash of the armed forces clearly indicate that it is their new course of action spurring anti-China activities.

The fact that the Soviet revisionist betrayers invaded our territory continuously and provoked border incidents means this handful of betrayers are social imperialists and genuine new czars. The people of the world clearly witnessed this. Cruel plundering and barbaric oppression were done to the people of the east European countries. Finally, they, mobilizing several hundred thousand troops, occupied Czechoslovakia and they are trying to build a colonial empire in a czar-style by adding the huge land of eastern Europe to their control. At the same time, they are doing the same thing in Asia. The Soviet revisionist betrayers not only made a colony out of the People's Republic of Mongolia, but they have dreams of invading and occupying the territory of China also. They regard the territory which the czars invaded and occupied as their own, and they are interested in the territory which the czars left untouched in China. Their guts are larger than the czars'. What is the difference, one may ask, between this robber-like activity of the Soviet revisionist betrayers and American imperialism, which at will occupies territories of other nations, invades other nations' sovereignty, and behaves everywhere as if everything is his own?

In 1900, Lenin in his essay "China War" denounced very severely the "beast-like criminal action" of the czar invading China. He said, "the China policy of the czar government is a criminal policy". "As always, the czar government this time also acted like a slave of those capitalists and nobility, and they were government officials with no responsibility to anybody". These words of Lenin are very apt indeed in describing those Soviet revisionist betrayers who inherited the cloak of the czar. They are shameless.

The military incitement of the Soviet revisionist betrayers toward our country is a mad act due to their difficulties in and out of their country, and a dead-end situation resulting from their domestic and diplomatic needs. They took this course of action to boost the anti-China sentiments and divert the discontent and opposition of the people in the Soviet Russia, which increase every day because of their reactionary, bourgeois and fascist government. At the same time, they pleased American imperialism by this act against China, and flattered the new Nixon government. This will benefit in turn the United States and the Soviet Union in their anti-revolutionary activities on an international scale. The Soviet revisionist betrayers think that they can overcome their difficulties by concocting some new anti-Chinese activity, but the result has been exactly the opposite. The peoples of China and the Soviet Union are very tightly connected in deep friendship to the revolutionists, and all the anti-Chinese conspiracy of the Soviet revisionist betrayers group is doomed to a complete destruction. These acts of theirs which are quite against logic reveal very clearly their anti-revolutionary stance. This is an act of inviting violent resistance of the people of the Soviet Union and the people of the world and, in short, this is like lifting a rock to drop on one's toe, and the quickest way for his own destruction and death.

Our great leader Chairman Mao Tse Tung once pointed out: "The reactionary forces, in the history of mankind, which are about to die always undertake a final struggle against the revolutionary forces". The Soviet revisionist betrayers are exactly in the same situation. This military provocation itself toward China by them is nothing but a manifestation of this imbecilic real nature of theirs.

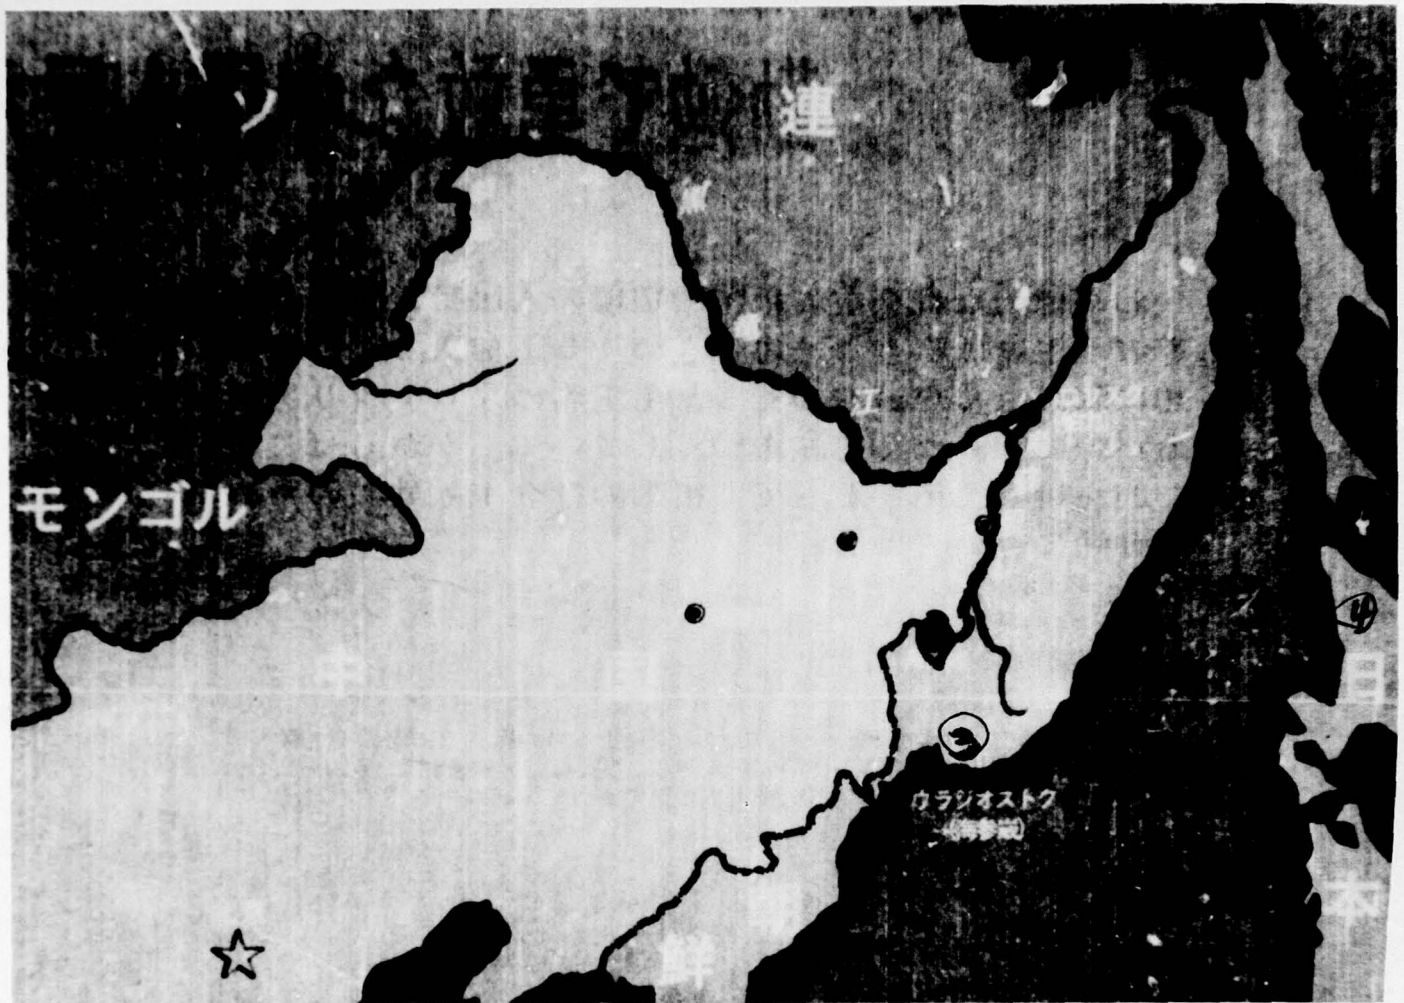

We warn the group of those Soviet revisionist betrayers! No one is absolutely allowed to invade the territory and sovereignty of China. We will not violate anyone so long as no one violates us. The time when the people of China were treated cruelly by other people has gone forever. If you see the great people of China today as the czars of Russia did once, it would be something like a blind man with open eyes, and like dreaming at high noon. If you continue military provocation toward China, you will get severe punishment from us with no doubt.

No matter how many of you and no matter what kind of allies you would bring against us, we will annihilate you to the last decisively and thoroughly. Seventy million (sic) people of China and the Liberation Army of China armed with the thoughts of Mao Tse Tung and tempered by the proletarian cultural revolution are stronger than ever. If anyone dares to invade our great socialist fatherland, he will meet terrible blows and be shattered.

Down with the new czars!

Down with the Soviet revisionist social imperialism!

Map of geographical locations of Wu Su Li River and Hei Long River

Key: 1 - Soviet Union; 2 - Mongolia; 3 - Vladivostok; 4 - Japan

The Wu Su Li and Hei Long rivers are in the northeast region (Manchuria) of China. The Wu Su Li flows 496 km inside the territory of China in a south-north direction, and the Hei Long flows 1,892 km inside the territory of China in a west-east direction. These two great rivers converge at a mid-point of Bo Li (Ha Ba Luo Fu Si Ke) and Fu Yuan Delta, Hei Long Jiang Province, China. This boundary was decided upon by the unfair treaty which was forced on the people of China by the imperialism of the czar of Russia.

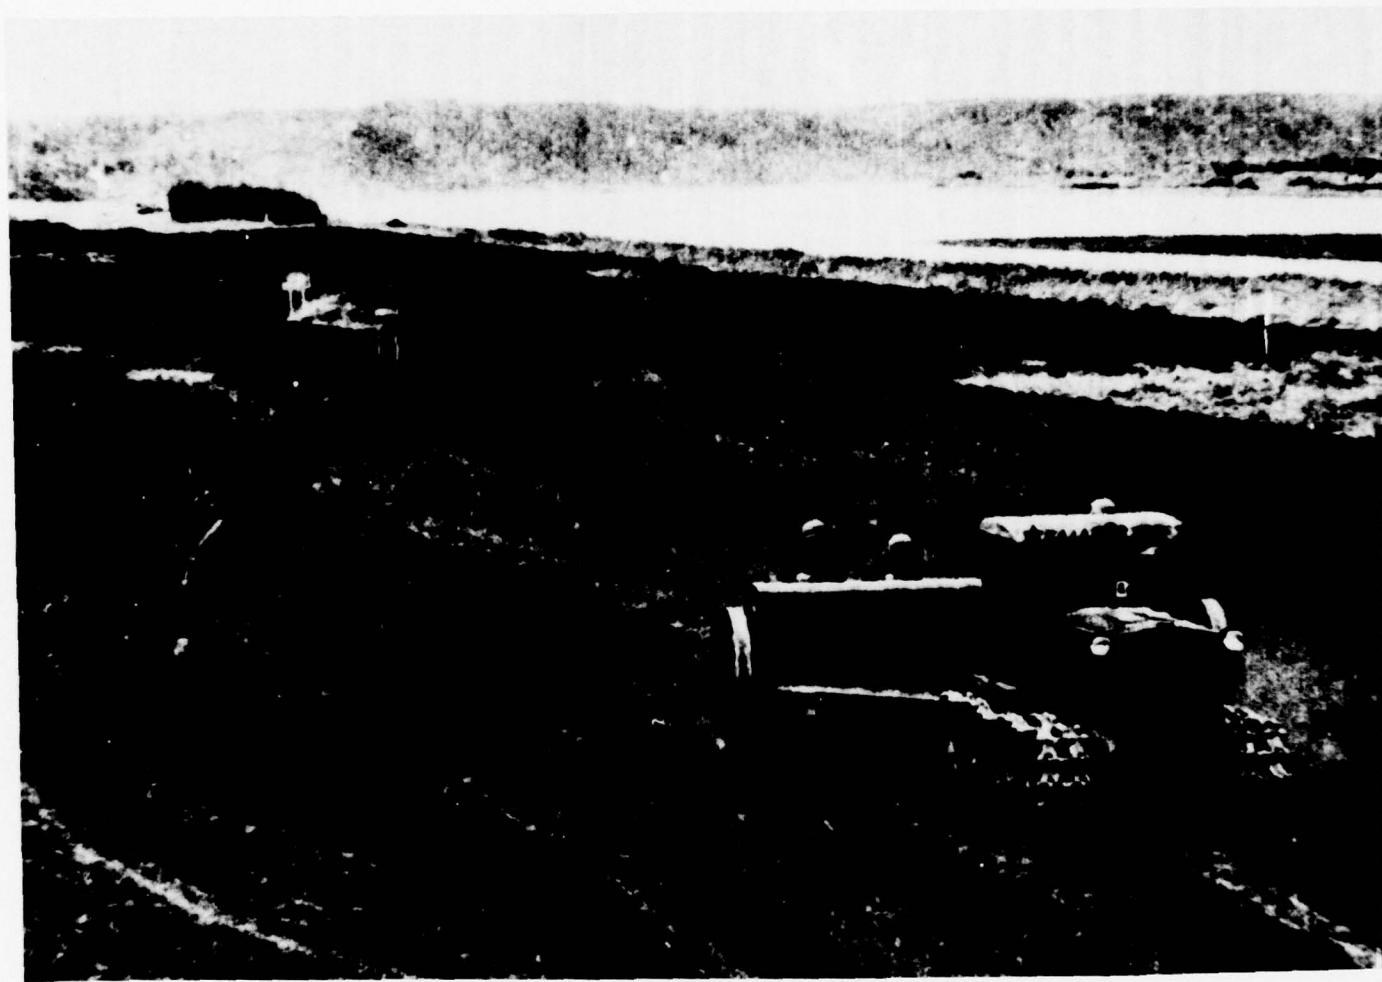

DILIGENT AND COURAGEOUS CHINESE PEOPLE AROUND THE WU SU LI AND HEI
LONG RIVERS LIVE FROM GENERATION TO GENERATION

The frontier people of our great socialist fatherland are infinitely devoted and loyal to the great leader, Chairman Mao Tse Tung. Infinitely devoted and loyal to the great thoughts of Mao Tse Tung, and infinitely devoted and loyal to the proletarian revolutionary course of Chairman Mao Tse Tung. Here they plow fields, catch fish and work very hard to build socialism for our fatherland.

The great rivers flow for thousands of leagues, like the goodness and favor of Chairman Mao Tse Tung which is deeper than the river. Chairman Mao, Chairman Mao, you are a red (bright) sun in the mind of the frontier people. The photo shows the frontier people who study seriously the works of Chairman Mao before they start the day's work. They lead and control everything based on the thoughts of Mao.

NEWLY ADORNED VAST LAND IN THE FRONTIER.

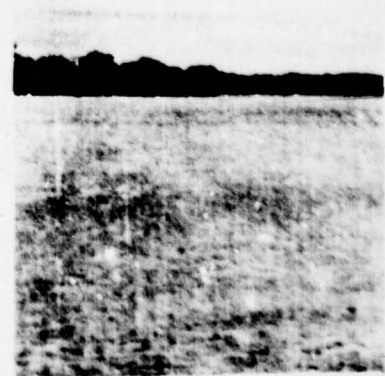

Wu Ba Lao Island, the territory of China, because it is situated on the China side of the center line of the main navigation route of Hei Long River, where many generations of people live and work. There, poor farmers, "low class middle farmers" of the commune are busy planting in the field.

The great flow of the river which never ends; once the net is thrown there is a mount of fish filling the store house. The fishermen of our country around Wu Su Li River have been engaged in fishing from generation to generation.

NOBODY CAN BREAK OUR BROTHER-IN-ARMS - FRIENDSHIP BETWEEN
THE PEOPLES OF CHINA AND THE SOVIET UNION

The peoples of China and the Soviet Union have been building a brother-in-arms friendship through a prolonged struggle for revolution. The two peoples continued a steady friendly association, and we are brothers and friends in the battle under the brilliant banner of Marxism, Leninism and the thoughts of Mao Tse Tung. The history of China and the Soviet Union left behind the border problems, but when the countries were socialistic countries there were no problems along the border.

When the Soviet Union was still a country of socialism, passengers on Chinese and Soviet boats exchanged brotherly friendship by waving hands and greeting each other.

ONCE THE LAND WAS SWEEPED BY THE WINDS AND LIGHTNING, THEN THERE
EMERGED A MOUNTAIN OF PURE WHITE BONES

One handful of betrayers like Khrushchev and Brezhnev usurped the party of Lenin and Stalin, and they "peacefully transformed" the world's first nation of proletarian dictatorship into a dark nation of bourgeois dictatorship of fascism. They intensified the oppression of the people within their country, and they are trying to bring in capitalism on a wholesome scale. Outside their country, they are making a

stronger collusion with American imperialism and trying to suppress the revolutionary struggles of the people of every nation. They are scheming at subdivision of the world. They are committing the "worst evil and non-ethical" crimes against the peoples of China, the Soviet Union and the whole world.

A. Khrushchev, the ringleader of the Soviet revisionists, and Eisenhower, the ringleader of the American imperialism, were as close as the photo shows.

B. Khrushchev, the shameful betrayer of the people of the Soviet Union, and the ringleader of the American imperialism, Kennedy.

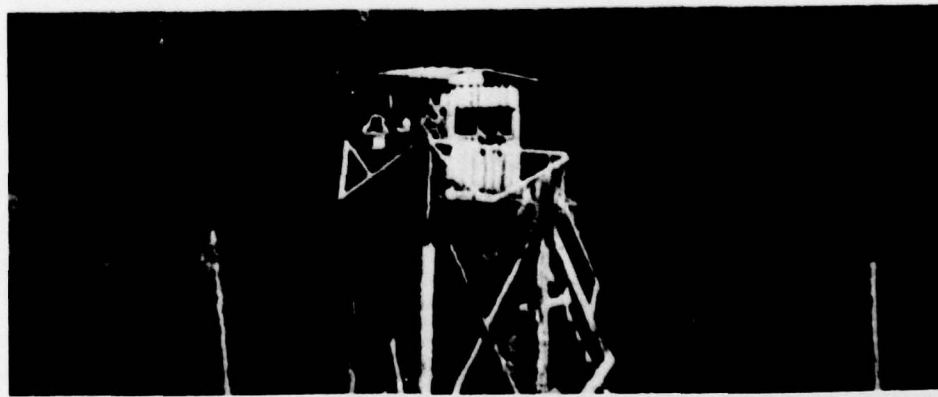

C. The Soviet revisionists Ambassador "Doburuinin" is wagging his tail toward Nixon, the new ringleader of the American imperialism. He is following the ideas of his master, Brezhnev. The most evil parties of the world, the Soviet revisionists and American imperialism, are strengthening the collusion of the two countries and conspiring at evil acts to subdivide the whole world.

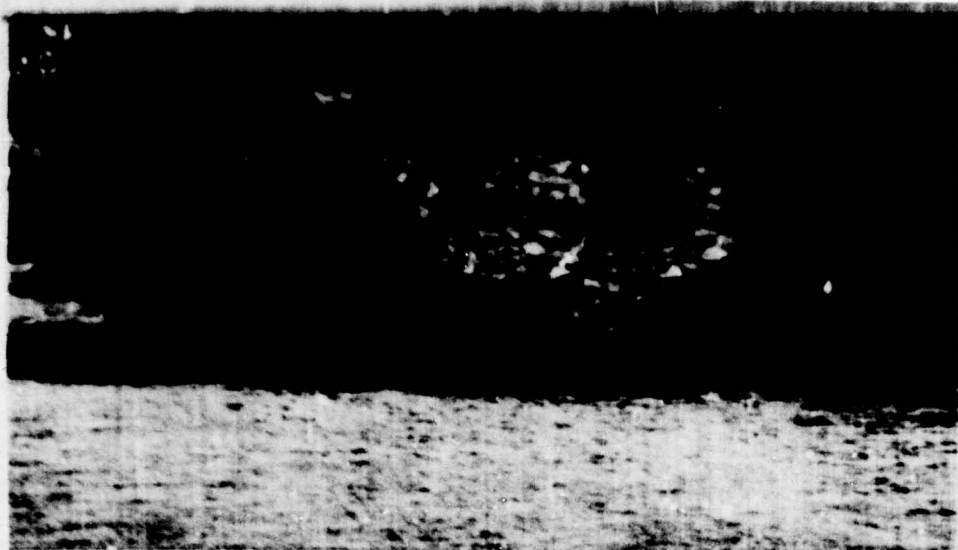

The group of the Soviet revisionist betrayers and the American imperialism are conspiring against China. Because they have to avert the eyes of Chinese people (away from the main issues), they sent their military forces to the Sino-Russian borders, concentrated fighting forces, constructed military installations, wrecked the status quo of the Sino-Russian border situations, incited armed clashes. After all these, they moved one step forward and they are trying to invade the Chinese territory to take possession of it.

- A. The group of Soviet revisionist betrayers mobilized many naval ships, and it is a military threat to our country.

- B. The group of the Soviet revisionist betrayers are building watch towers one after another along the Sino-Russian border, and they keep beligerent watch over the people of China.

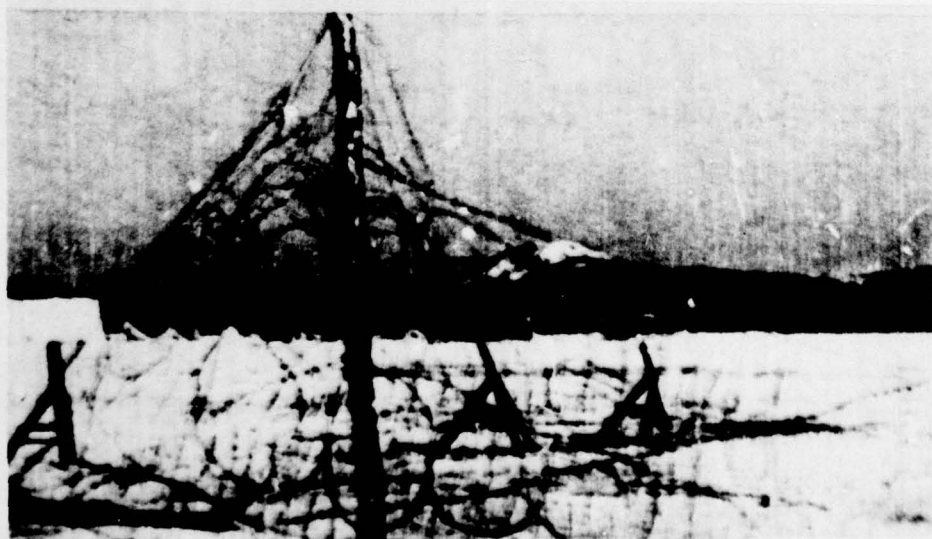

A. All these efforts of various kinds are aimed at the great socialist country China.

B. Their aircraft continuously invade the territorial skies of China, doing harassment and reconnaissance activities.

The group of Soviet revisionist betrayers betrayed the doctrines of Marx and Lenin and were in collusion with American imperialism. They are busy in anti-China activities, but they cannot destroy the brothers-in-arms friendship of the peoples of China and the Soviet Union. In the mind of the people of the Soviet Union, flames are burning for revolution. They cherish the memory of the great Lenin and Stalin and enthusiastically love our great teacher, Chairman Mao Tse Tung.

peoples of China and the Soviet Union kept an alliance for a long
time through the struggles of revolution.

THE GROUP OF SOVIET REVISIONISTS BETRAYERS HAVE INHERITED THE CLOAK OF THE CZARS, AND THEY ARE SCHEMING TO GO FORWARD INVADING AND TAKING POSSESSION OF THE TERRITORY OF CHINA.

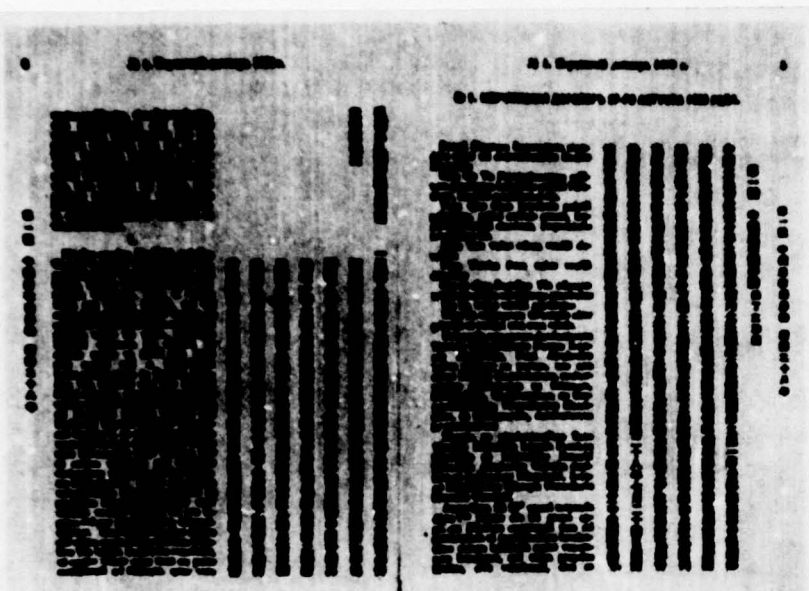

After the Opium War of 1840, the czar of Russia conspired with Western nations of imperialism, pressing China to sign a series of unfair treaties.

The Treaty of Ni Bu Chu of September 8, 1689, defines that the line along the rivers of E Er Gu Na and Ge Er Bi Qi and the Outer Xing An Ling ranges as the eastern section of the Sino-Russian border; and that the vast area north of Hei Long River, south of the Outer Xing An Ling ranges and east of Wu Su Li River, as the territory of China. At that time, Wu Su Li River and Hei Long River were situated in the territory of China.

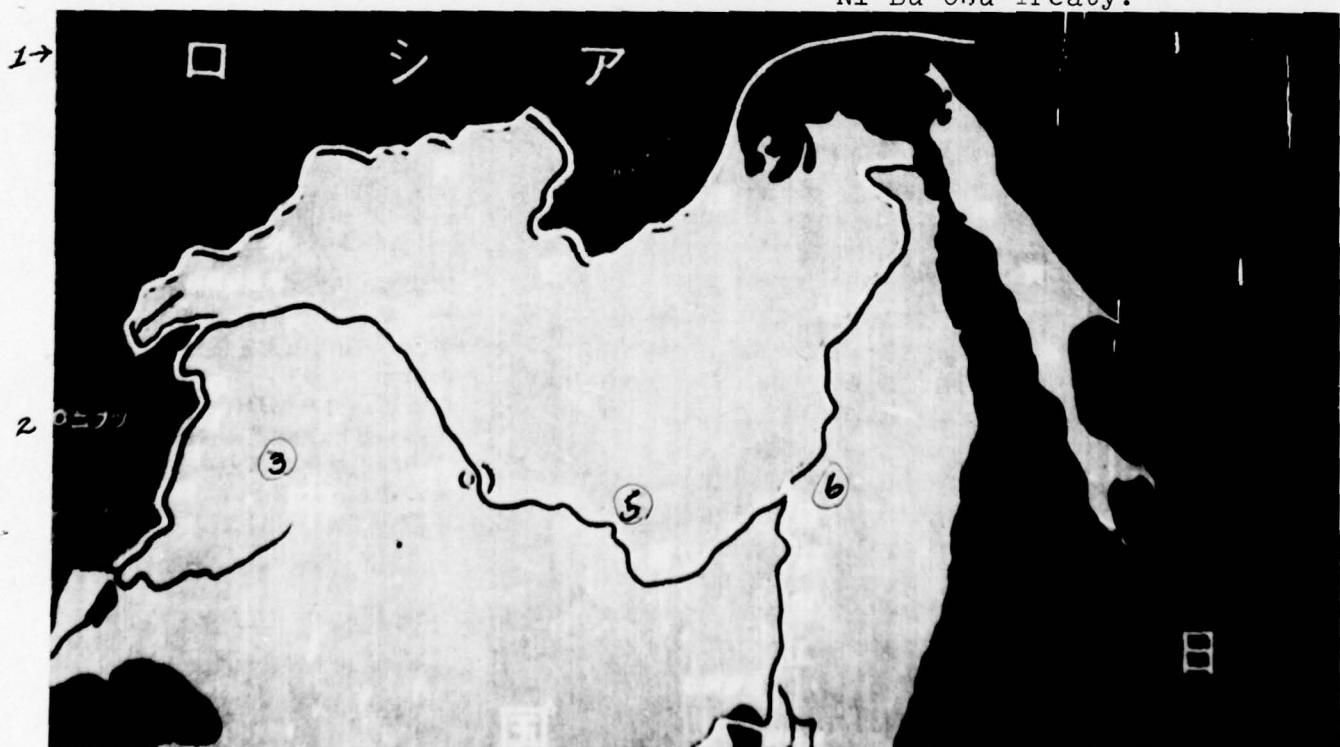

May 28, 1858, taking advantage of the opportunity when the allied army of British and French imperialisms invaded China, czarist Russia militarily threatened the government of the Qing Dynasty and concluded the unfair Treaty of Ai Hun. This treaty allowed them to snatch away an area of more than 600,000 sq. km north of Hei Long River from the territory of China, and the large area of the territory of China east of Wu Su Li River was put under Sino-Russian joint control.

November 14, 1860, the czar of Russia again borrowed military pressures from the allied army of British and French imperialism when they marched into Peking and occupied it. They threatened the Qing government to sign one more unfair Treaty of Peking, and forcefully transferred an area of more than 400,000 sq. km east of Wu Su Li River of the territory of China to the territory of Russia.

By the unfair Sino-Russian Treaty of Ai Hun and Sino-Russian Treaty of Peking, czarist Russia illegally took possession of our land in the northeast area (Manchuria) and it is more than 1,000,000 sq. km. This area corresponds to five White Russian republics of the Soviet Union, the area of two Frances, or the area of 10 Jiang Su Provinces of China.

The collected works of Marx and Engels

The collected works of Lenin

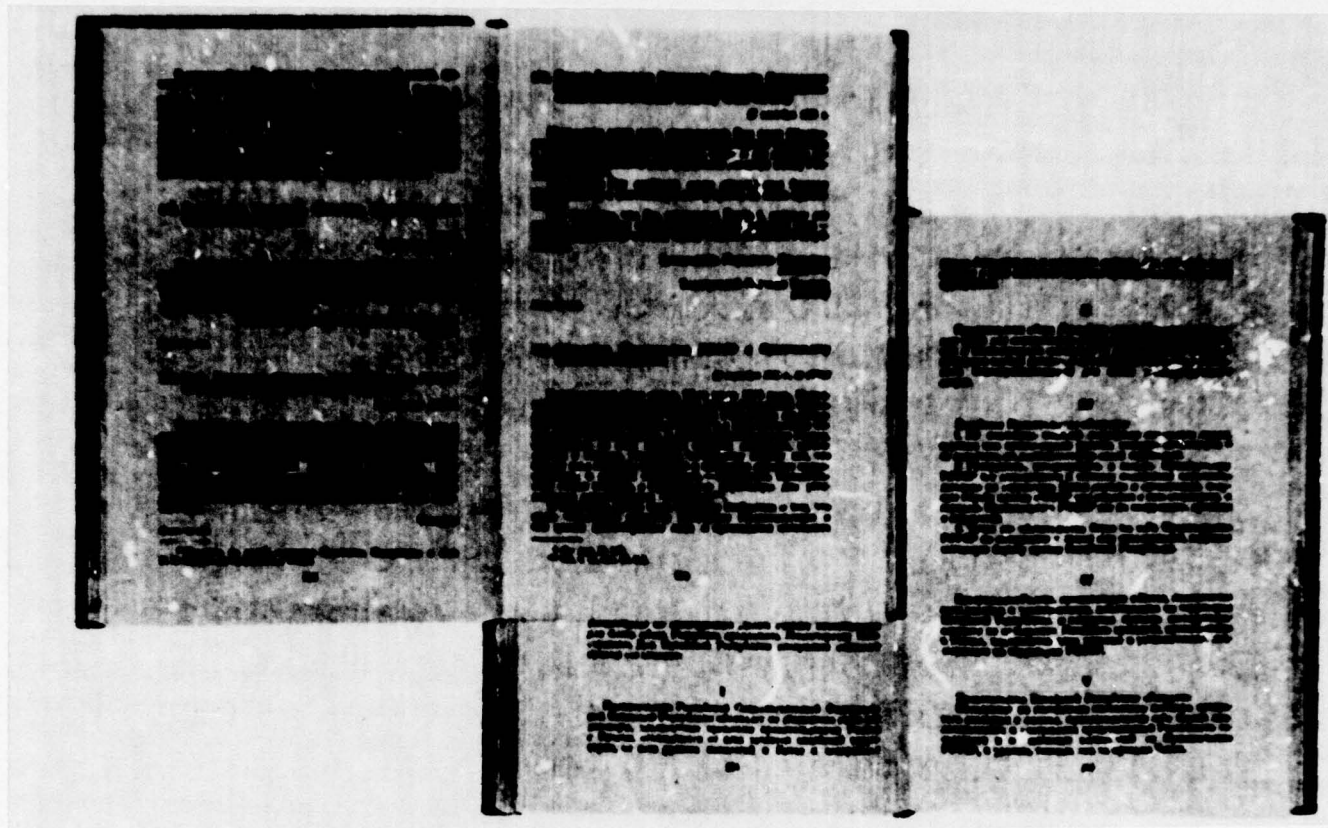

The collected works of Marx and Engels; the collected works of Lenin.

Marx, Engels and Lenin, the great teachers of the international proletariat, severely denounced the criminal deeds of the czar of Russia invading China.

In 1858, criticizing the Sino-Russian Ai Hun Treaty which the czar of Russian imperialism forced upon the people of China, Marx pointed out, "The Second Opium War helped Russia in getting possession of the important area which stretches from the Gulf of Tartary to Lake Baikal, and it was the goal of an ancient ambition of Russia. From Tsars Alexey "Mihairovich" to Nicholai, they always wanted to acquire that land". ("On the Sino-Anglo Treaties", pp. 625-626, vol. 12, Chinese language version of The Collected Works of Marx and Engels).

Criticizing the unfair Sino-Russia Treaty of Ai Hun, Engels said, "As England decided finally to bring a war to Peking and when France was pursuing England hoping to get something valuable, Russia snatched from China a river as lengthy as the Donau River and a territory as large as France and Germany combined".

(Footnote: Text missing between pp. 23-24, and the first sentence of page 24 is incomplete)

"...succeeded in setting up Russian-Chinese committee. However, we all know what this kind of committee in the hands of Russia is. We saw what they did on the Asian border in Turkey. There, for more than 20 years these committees cut the territory from one piece to another and took them". ("Russian Success in the Far East", pp. 662, 664, vol. 12, Chinese language version, The Collected Works of Marx and Lenin). It is a very sharp comment. The situation developed as Engels wisely and clearly predicted, and from 1858 on, Russian imperialism indeed "cut and took piece by piece" land from the territory of China.

Lenin also was furiously angry more than once, and a few times denounced the czarist Russian invasion of China and its criminal act. Lenin said, "the government of every nation in Europe (the Russian government is the first among them) already began subdividing China. They could not dare, however, to do it on a grand scale, but they started subdividing the land like petty thieves. They started stealing

land from China as if they were stealing belongings from a dead man. When the dead man arose and opposed, they pounced like a wild beast, killing and setting fires. They burned several villages flat, and chased villagers into the river of Hei Long to die. They shot civilians with many weapons to death, with their wives and children. They pushed them with tips of bayonets and raised them high in the air". ("The China War", pp. 335-336, vol. 4, Chinese language version, The Collected Works of Lenin).

Lenin the Great then supported China and all other oppressed nations **which** were opposing foreign invasions by the czarist Russian imperialism and all other imperialist powers. Lenin said, "For example, if Morocco would declare a war against France tomorrow, India would do likewise against Great Britain, and Persia or China would do the same against Russia, then these wars would be wars of justice and self-defence, regardless of who started the war. And everyone who is a socialist would wish for the victory of those nations that are **being** oppressed, subordinated and having no equal rights over the "super" nations that are the oppressors, the slave owners and the plunderers". ("The Wars and Socialism", pp. 280-281, vol. 21, Chinese language version, The Collected Works of Lenin). As we review the teachings of Lenin today, the frantic propaganda of the imperialist robbers of the government of the Soviet Union is not only not acceptable from the political viewpoint of Lenin, but it is a most shameful betrayal of Leninism. That is all we can say in conclusion.

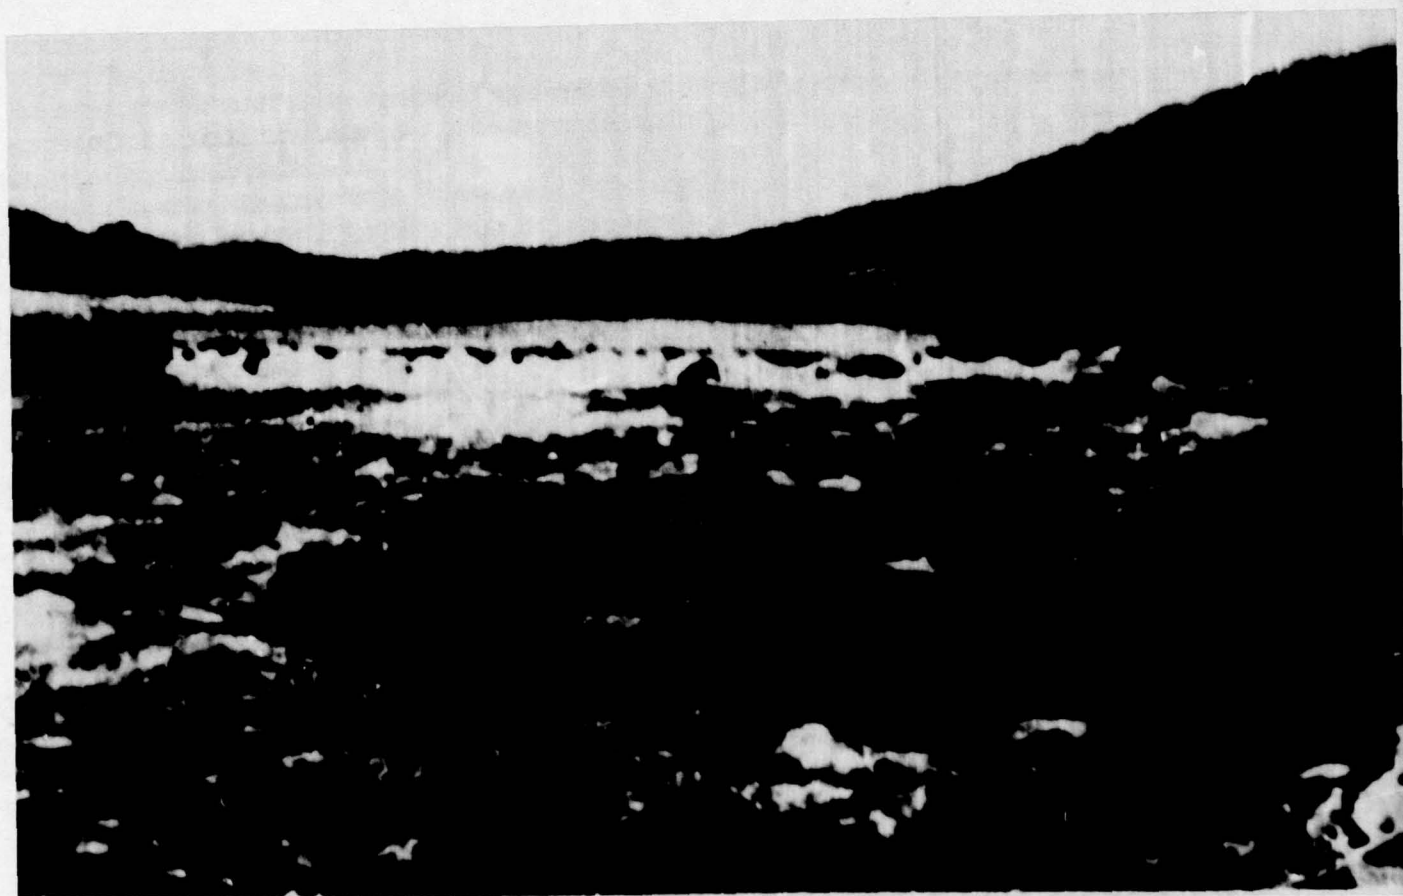

September 27, 1920, the government of the Soviet Union led by Lenin declared to the government of China "All the treaties concluded between the successive governments of the Soviet and China will be nullified hereby. All the territorial claims on China and the extra-territorial rights of Russia in China are hereby renounced. All the things the czarist government and the Russian bourgeoisie took away from China are hereby decided to be returned with no compensation for them". It was a solemn declaration. China was then under the control of a reactionary government, and this great proletariat policy of Lenin never materialized.

The map the Soviet Union handed over to China during the Sino-USSR border negotiation in 1964. In the map, about the border demarcation of the Ha Yu Island area, Fu Yuan Country, Hei Long Jiang Province, the River Hei Long was set as the demarcation line and Hei Long River, and its main navigation route are clearly noted on the map also. But they drew a demarcation line along a small tributary in the territory of China, and they transferred our Ha Yu Island very selfishly to their domain. This is evidence of invasion and occupation schemes over the territory of China by the group of Soviet revisionist betrayers.

The group of Soviet revisionist betrayers completely betrayed the great teachings of Marx, Engels and Lenin. They consider what the czars invaded and took possession of as their own, and they try to invade and take possession of what the czars did not invade and took possession of. Their guts are bigger than the czars'. They are the true new czars in name and substance. They are social imperialists through and through.

The unfair Sino-Russian Treaties of Ai Hun and Peking defined the courses of Hei Long River and Wu Su Li River as the Sino-Russian border line. On the basis of the regulations of the international laws which have been officially approved, the center line of the main navigation route of a river is the international boundary in most cases of navigable international streams, and the islands in the stream are also determined by that line. This has been the governing standard so far for both China and the Soviet Union. But the Soviet revisionist betrayers intentionally redrew the map with a scheme to invade and occupy the territory of China. There are more than 700 islands on this side of the center lines of the main navigation routes of the rivers of Helong and Wu Su Li. The group of Soviet revisionist-betrayers took more than 600 islands from them, the total area of which amounts to more than 1,000 sq. km, and transferred them to their domain.

How base are the Soviet revisionists! They built a dam in the river of Hu Bu Tu, a river along the Sino-Russian border line, in order to divert the course of the river to wash the banks of our country, and it is eroding the territory of China.

About the problems of the Sino-Russian border dispute the history handed down to us, our government consistently advocated the status quo be maintained until a solution is reached, and the solution must be reached through negotiations. On August 23, 1963, our Ministry of Foreign Affairs sent a memorandum to the USSR Embassy in China, and presented the following proposals regarding the maintenance of the border line status quo and prevention of border clashes:

"Both parties are to maintain the status quo of the border line, and by every possible means, it must be guaranteed that the actual control line of the border should not be pushed forward.

"Both parties must avert clashes and it must be guaranteed that the Border Guards and other personnel do not exercise military powers, do not threat militarily, or do not shoot guns.

"Both parties must not cross the main navigation route of each navigable river and stream which is the Border Guards patrol line, where the streams and rivers are the border demarcation line.

"This agreement has nothing to do with problems of territorial possessions. The difference of opinions of both parties regarding the border problem is to be discussed at the border negotiations by the two governments."

These proposals of China which are reasonable met an unjust refusal by the Soviet Union.

Because of the repeated proposals of China, a border negotiation between the governments of China and the Soviet Union took place in 1964.

For this negotiation, China clearly pointed out as follows:

All the treaties which are related one way or another to the present Sino-Russian border situation, like the Sino-Russian Treaty of Ai Hun and the Sino-Russian Treaty of Peking, were forced on China by czarist Russian imperialism, when the peoples of China and the Soviet Union did not have enough power to resist and they are unfair treaties. China hopes to strengthen our revolutionary friendship with the people of the Soviet Union, and it is still our hope to solve all the problems which exist along the border and determine the location of the borderline of the two countries on the basis of these treaties. In case one of the parties occupies the territory of the other in violation of the treaty, in principle, the entire territory must revert to the other party unconditionally. But, on the basis of the treaty, we hope that both parties talk to one another on an equal basis, try to understand mutually and follow the principle of compromise. And we hope necessary adjustments will be made to each location of the borderline. However, the Soviet Union refused to accept these reasonable proposals. They never admit that those treaties related to the present Sino-Russian borderline are unfair. They are stubborn, not agreeing to make these treaties the basic line for the solution of the two countries'

border problems. They, compelling China to accept new unfair treaties, have schemed to legally freeze the territory of China; they forcefully occupied beyond the demarcation line which has been defined by the unfair treaties. China severely denounced such super-power anti-foreignism, and the territorial expansionism of the Soviet revisionist betrayers.

By the repeated proposals of the Chinese government, the border negotiation between the governments of China and the Soviet Union took place in Peking in 1964. The photo shows the delegates of the Soviet Union arriving at Peking airport.

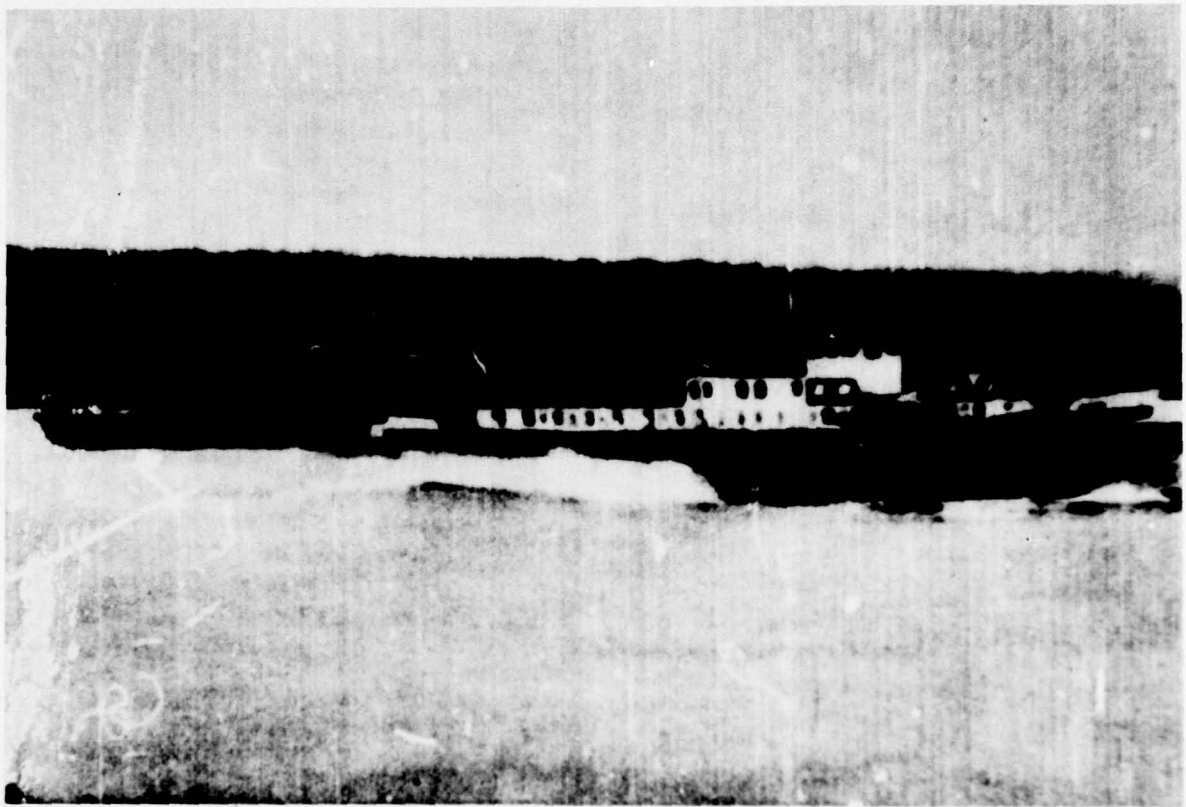

They are madly engaged in anti-China activities on the land and, on the other hand, they are provoking and harassing on the waters. The photo shows that the activities of the Chinese fishermen are being destroyed by Soviet gunboats on the river Wu Su Li. The gunboats act as if it is their own property.

THE GROUP OF SOVIET REVISIONIST BETRAYERS ARE THE NEW CZARS IN NAME AND IN SUBSTANCE, AND THEY ARE SOCIALIST IMPERIALISTS THROUGH AND THROUGH.

The group of Soviet revisionist betrayers not only refused to negotiate for the solution of the Sino-Russian border problems, but they went forward to destroy the status quo of the border situation and brought up the border incident. They directed the gunboats and the high speed naval ships openly along the rivers of Wu Su Li and Hei Long and madly provoked China. Not only that, what makes us angry and

excited is the fact that they directed their military forces to invade the territory of China, beat the soldiers of our Border Guards, killed unarmed fishermen and farmers of China, set fires, killed by beating, killed by running over, and furthermore, chased the people to the river cruelly to drown. All in all, what is the difference between the violent and cruel acts of the czarist Russian government and the violent and cruel acts committed against the people of China by the group of Soviet revisionist betrayers?

Two Soviet gunboats obstructing regular navigation of our passenger ships.

(Footnote: Captions on pg. 31 are cut in the middle)

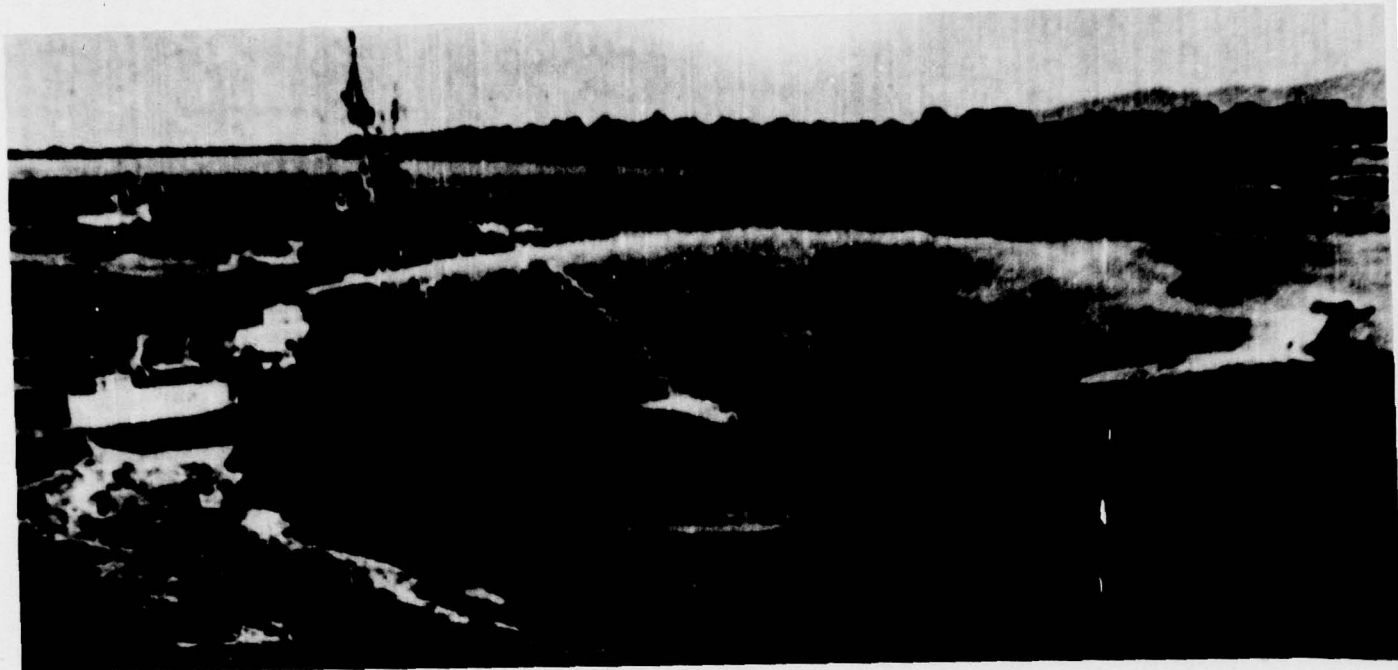

They are begging sympathy from the American imperialism, and in front of the fishermen of the socialist China, they are endlessly haughty and violent. The photo shows a Soviet gunboat approaching at high speed toward our fishing boat in spite of our warnings.

ソ修挑発者と道理を説く闘争をすすめる中国の漁民

by reasoning out with the provocative Soviet
revisionists.

A group of the Soviet revisionist betrayers mobilized many gunboats and fire boats in the broad daylight and sprayed madly on our fishermen using high pressure hoses.

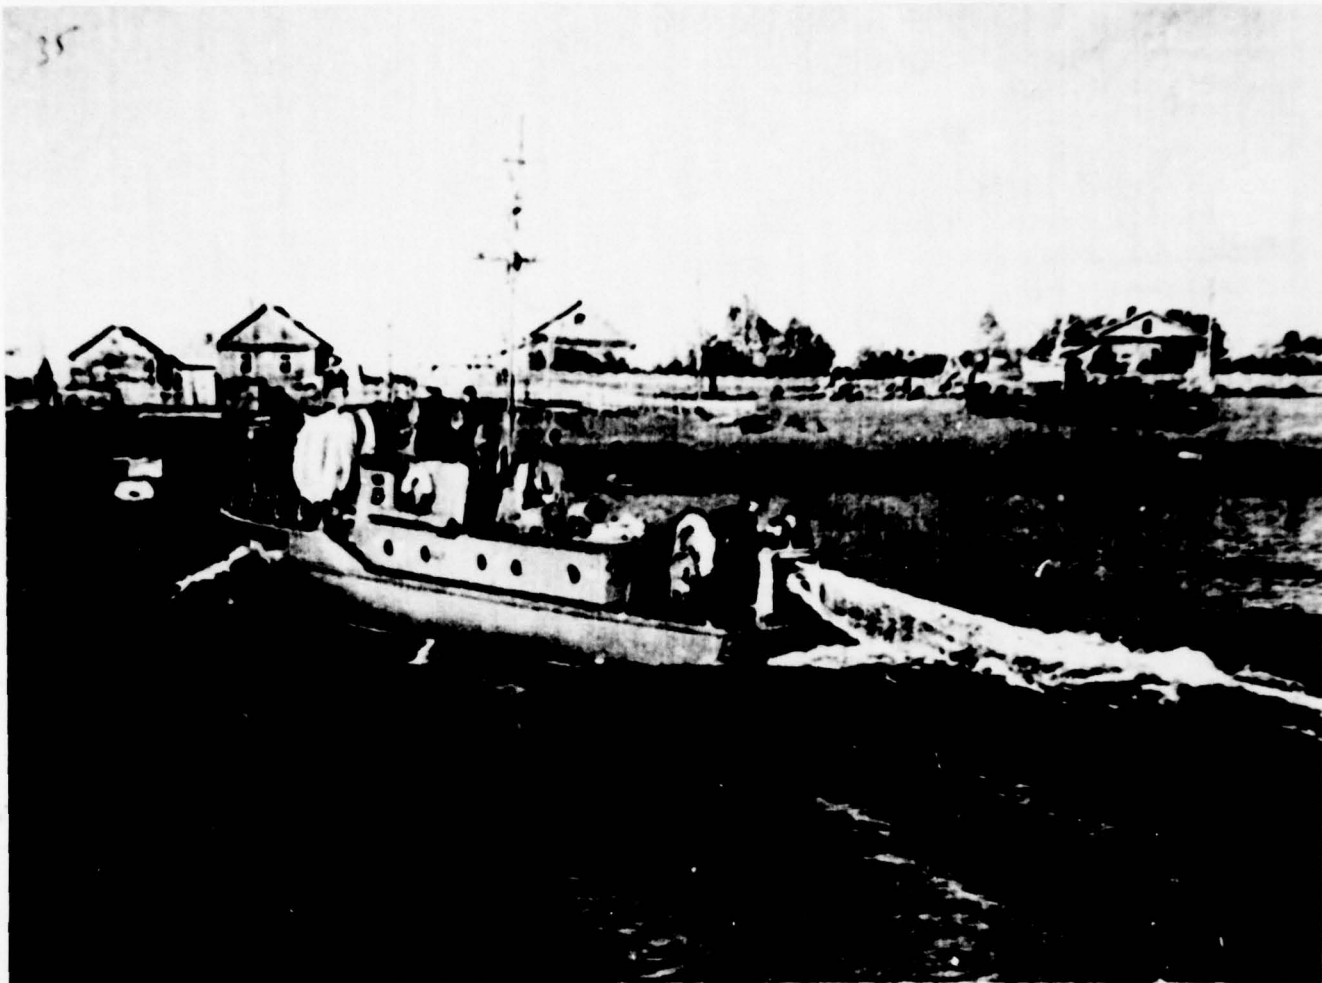

The Soviet fireboat sprayed water on our patrol boat gone over to protest.

Anger swells from deep within and a burning hatred spreads.
The Chinese fishermen around the river Wu Su Li are furiously angered
by the robber-like acts of the Soviet revisionist betrayers. Our
fishermen advanced courageously and fought with them face to face.

In the violent and cruel storm, our fishermen raised the axe of enmity and cut down the hose of the gunboat. The photo on the lower left is the unmovable evidence of the Soviet revisionists squirting water on our fishermen.

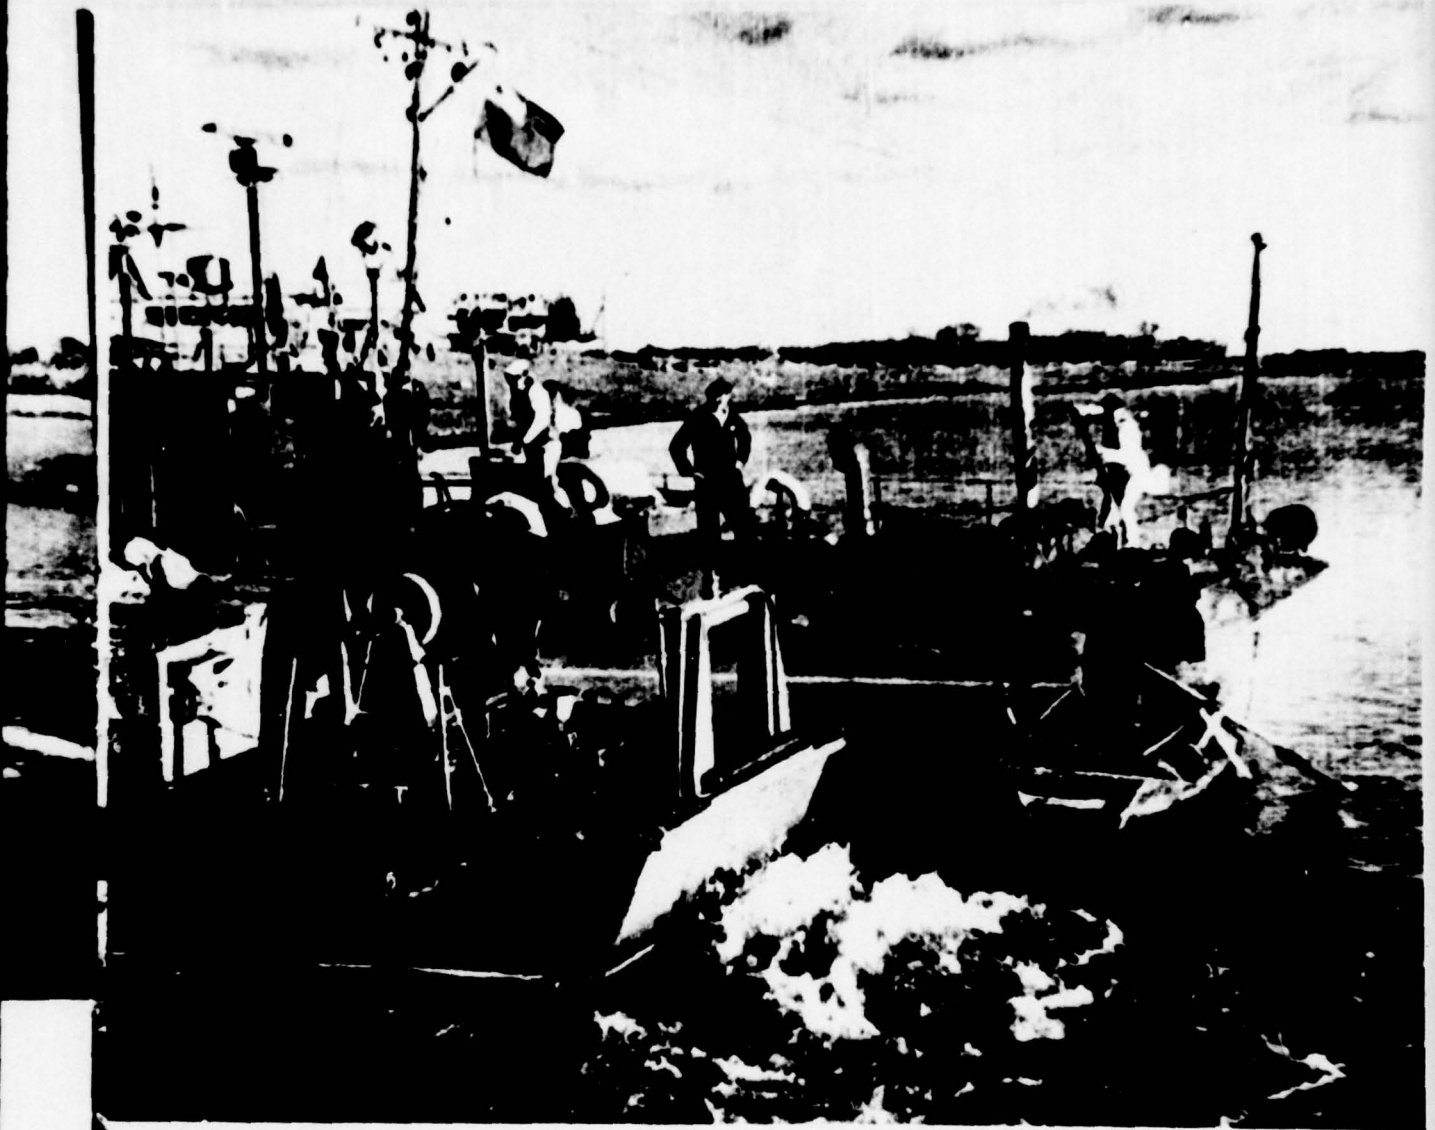

A. Soviet revisionists forcefully take away fishing nets from the Chinese fishermen and destroy their fishing activities.

B. A small anchor specially manufactured by the Soviet revisionists for the purpose of pulling and breaking the fishing nets of the Chinese fishermen.

C. An iron rod with the bent tip used by the wild Soviet revisionists to destroy our fishing boats and fishing nets.

わが国の漁民ははげしい憤りをこめて、ソ修挑発者に強奪した漁網をかえすよう要求した。

Our fishermen were fiercely angry and demanded the provocative Soviet revisionists to return the fishing nets they forcefully took away.

The provocative Soviet revisionists not only did not return the fishing nets, but violently beat our fishermen.

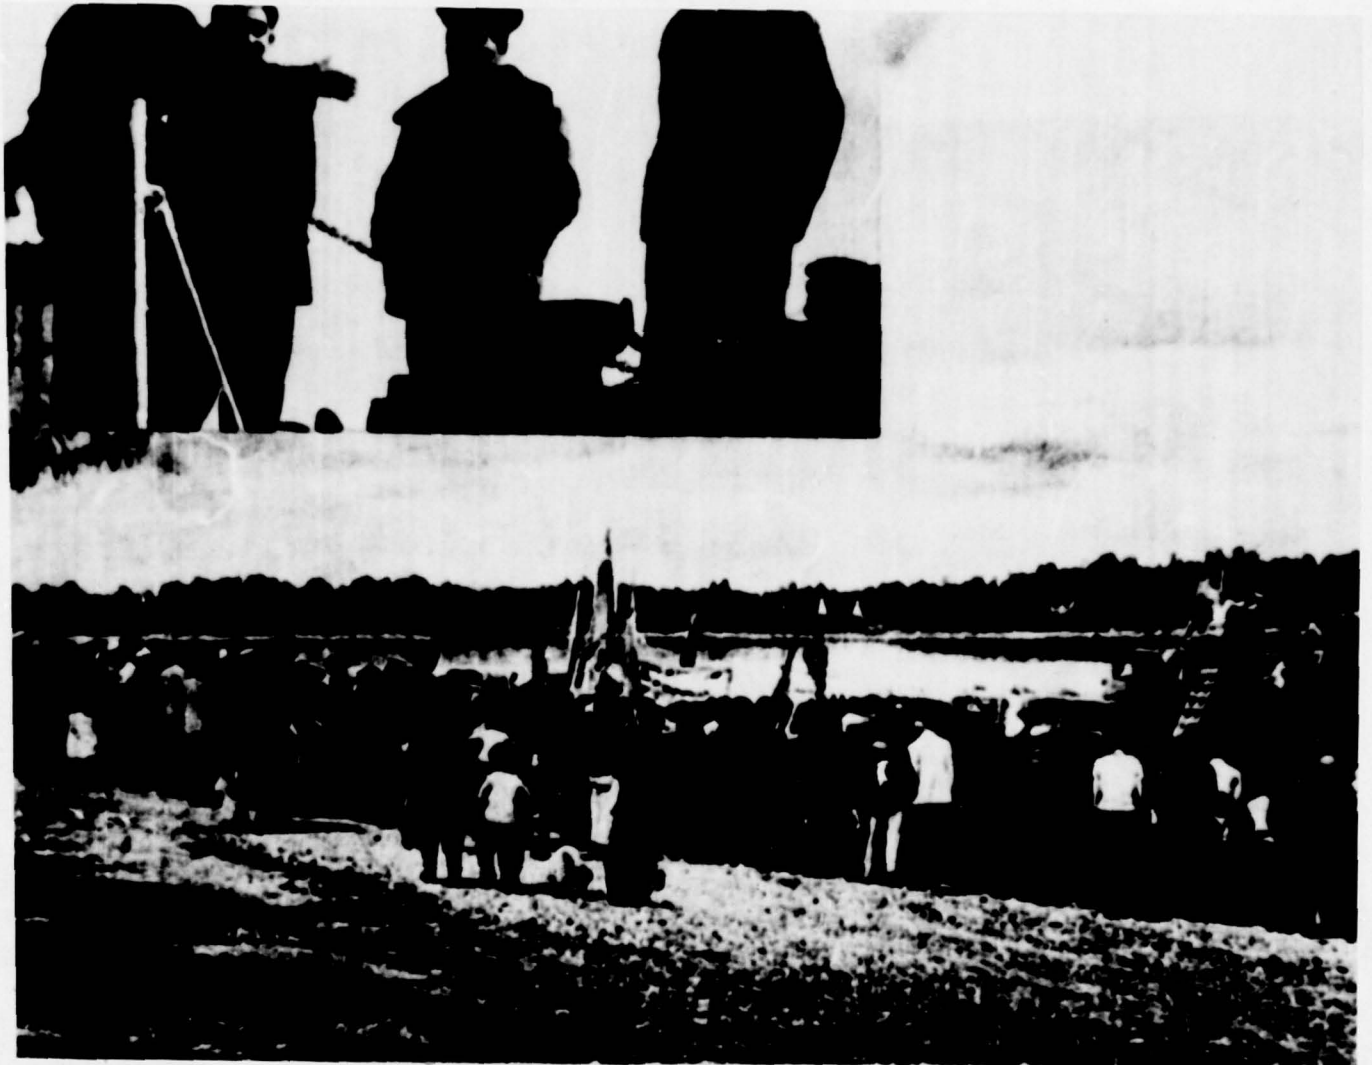

ソ修共産党は漁網をかえさないうばかりか、わが国の漁民をはげしく殴打した。

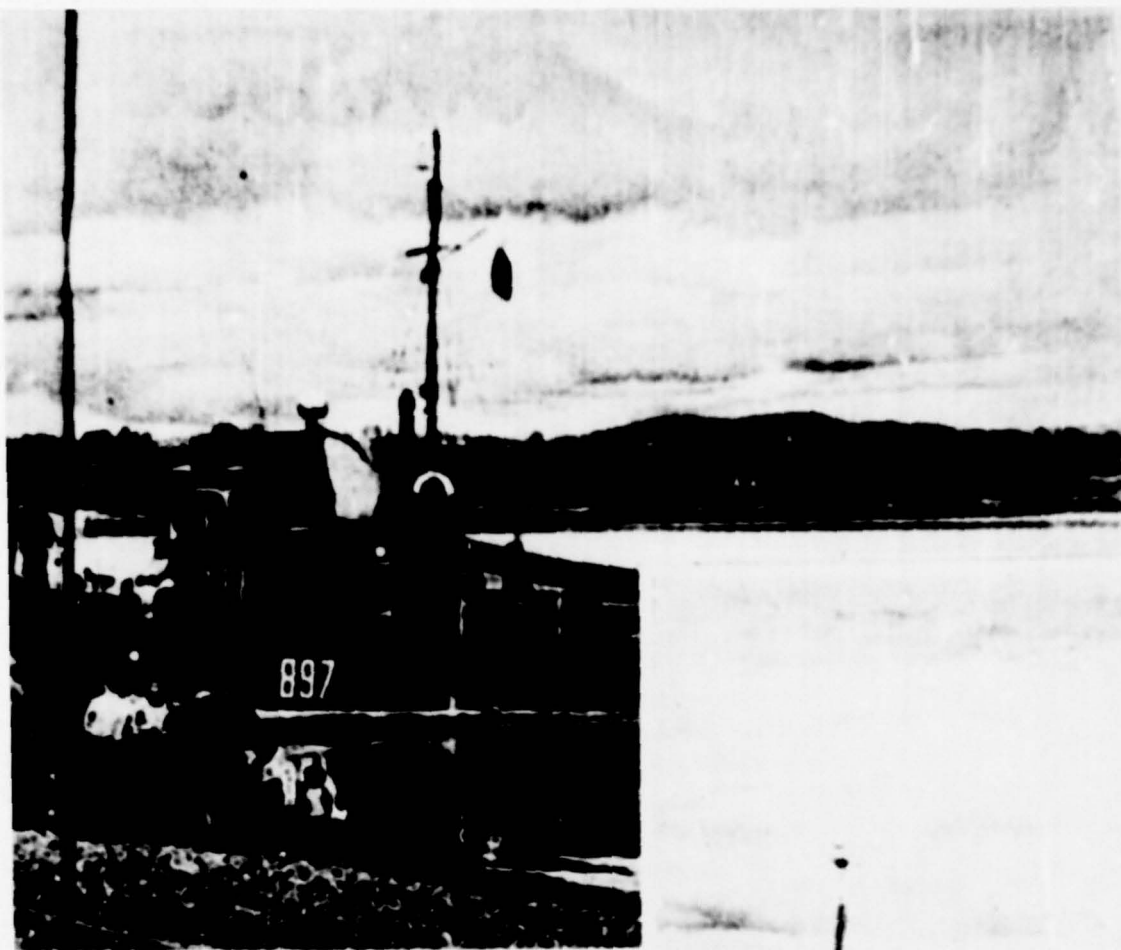

September 24, 1967, the Soviet revisionists openly kidnapped our fishermen. However, beating and kidnapping not only cannot shake the intention and will of the fishermen who are decisive and firm to struggle through and not only cannot shake the "red" mind of the fishermen who show infinite loyalty and faith toward our great leader, Chairman Mao, but it completely exposed the fact that the Soviet revisionists are social imperialism in name and substance.

The personnel of our National Border Guards units made a solemn public statement and vehemently protested against the group of the Soviet revisionist betrayers who directed their troops to do the most evil and non-ethical criminal acts of kidnapping our fishermen. Our fishermen also angrily pointed out on the spot that the Soviet wild gangs molesting the fishermen of our country is a criminal fact. The personnel representing the Soviet National Border Guards had nothing to say when they were pressed for the reason and answer, and they had no choice but to return the fishing boats and fishing nets they forcefully had taken away from the fishermen of our country.

Down with U. S. imperialism!
Down with the Soviet revisionists!
The mass of people angrily roared
and the delegates of the Soviet
revisionists Border Guards ran
away hiding their tail.

ON THE DIKE NEAR RAO HE ZHEN

In order to make their ambition of territorial expansion realized, Soviet revisionist betrayer groups constantly destroyed the status quo of the border situation and directed their military troops to invade our national territory. They acted to provoke us to a military clash. The photo shows a helicopter (below) and armored vehicles simultaneously invading the area of Rao He Zhen of our country.

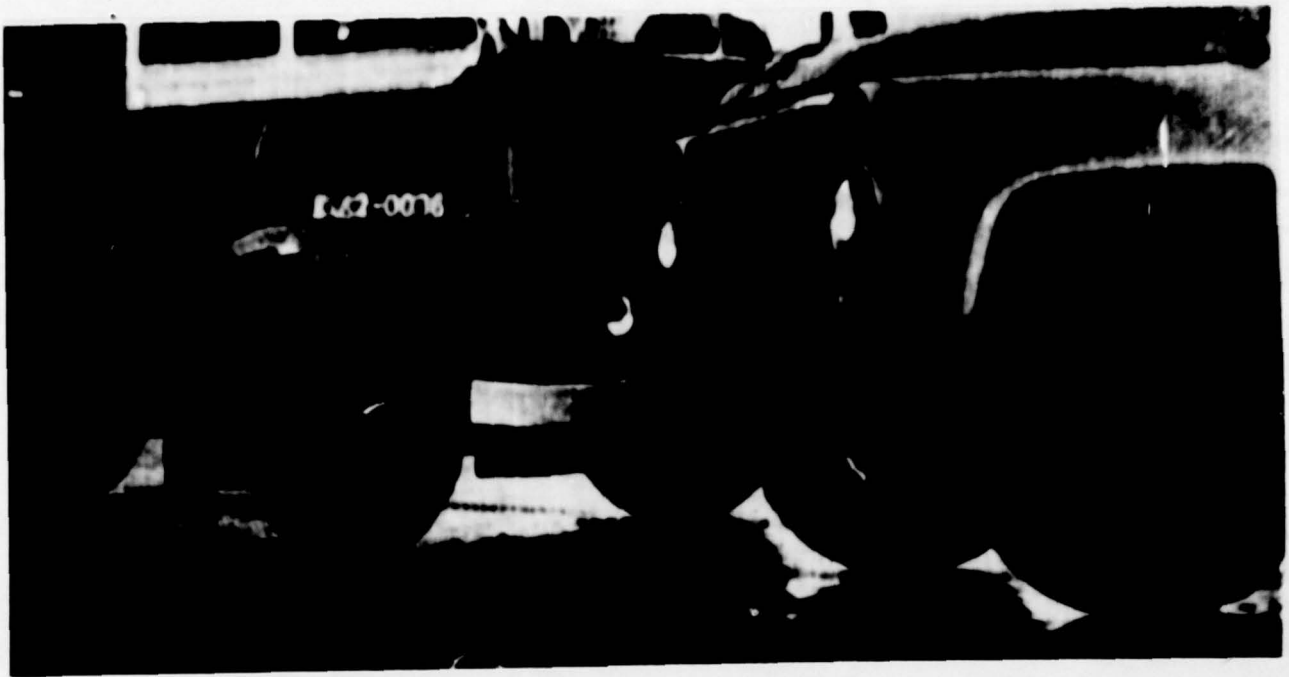

Soviet revisionists act high-handedly inside our territory as this picture shows--a Soviet revisionist armored vehicle bumping into our truck and destroying it.

Soviet revisionists are doing their utmost in wildness and violence. A Soviet revisionist's armored vehicle just bumped into our tractor.

Soviet revisionists act as if everything is theirs. A truck of Soviet revisionists just interfered with our bus.

A wild gang of Soviet revisionists' attack on a teen-aged child.

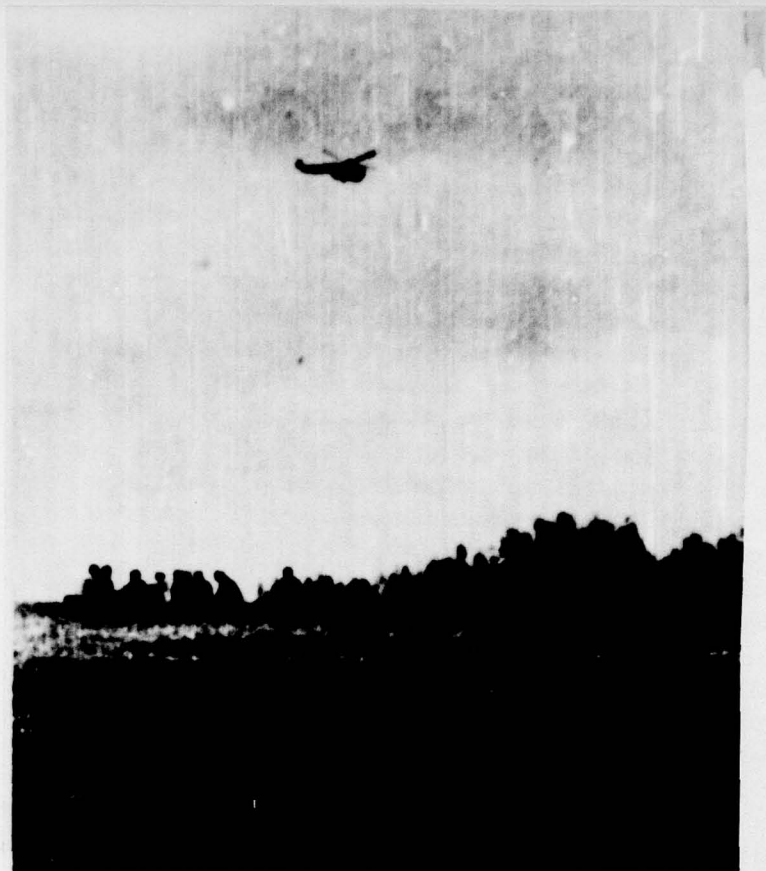

A violent gang of the Soviet revisionists surrounded the fishermen of our country and beat them.

The new czars of the Kremlin are the socialist fascists in name and substance. What are they doing to the fishermen of our country?!

However fiendish and wild the group of the Soviet revisionist betrayers may be, the people of China armed with the thoughts of Mao Tse Tung are not scared. The photo shows the mass of Chinese people waving the red book of the sayings of Chairman Mao and charged with anger and fighting spirit, fighting and reasoning out with the Soviet troops who invaded our country.

Wu Bao Lao Island, situated on the China side of the center line of the main navigation route of Hei Long River, is originally a territory of China and the civilians of our country have been working on the island from generation to generation. For the last several years, the Soviet revisionist betrayers constantly invaded our national territory and territorial sky and oppressed our frontier people. The photo shows a helicopter of the Soviet Union once again invading the sky of Wu Bao Lao Island on Hei Long River and threatening the people working on the island.

The Soviet revisionist betrayers directed their troops to invade our national territory Wu Bao Lao Island and they are destroying production activities of our people on the island. The photo shows fully armed troops of the Soviet Union pushing the boats away, beating the people of the island and pushing them into the river. They are commanded by the field officer who is standing on the top of the bank and the company officers who are standing on the slope of the bank.

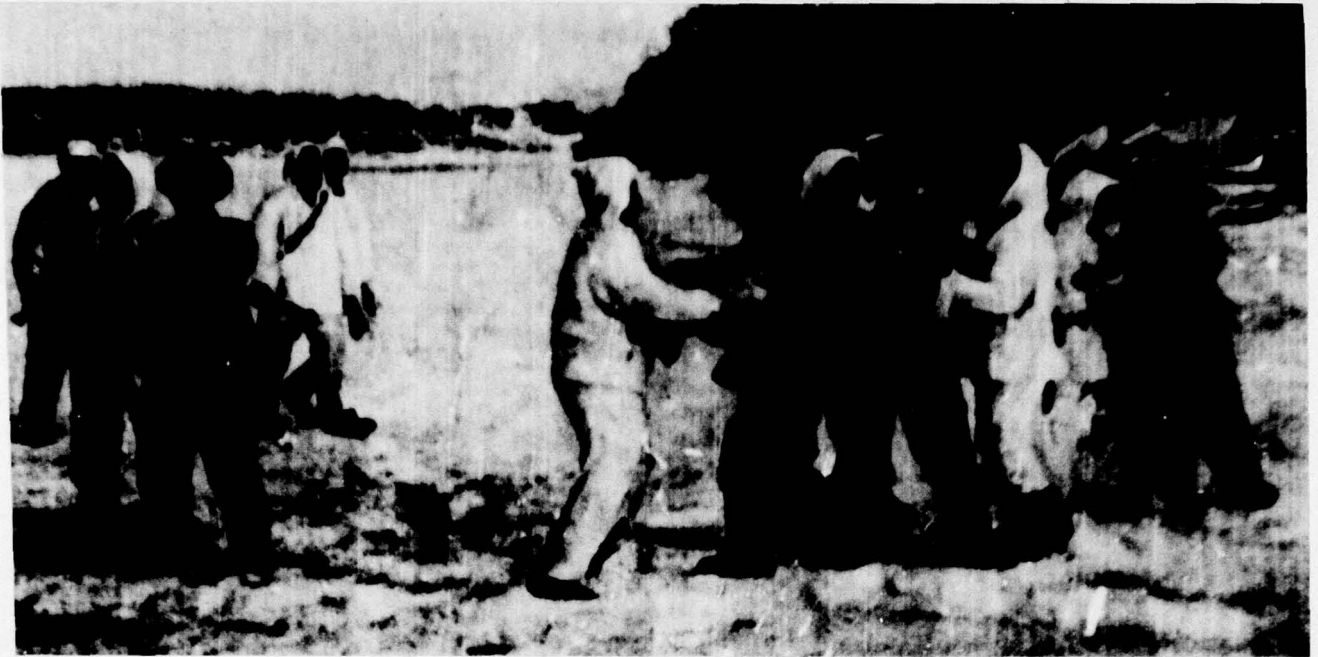

The new czars of today are as cruel, unbearable and barbaric as the old czars. The photo shows the wild gang of the Soviet revisionists, directed by the group of the Soviet revisionist betrayers, invading the area (illegible foreign text) Jia Xin Zi Island situated on the China side of the center line of the main navigation route of the Hei Long River and they are about to beat the fishermen of the island.

ON QIA BO ZI ISLAND

Qia Bo Zi Island is situated on the China side of the center line of the main navigation route on Wu Su Li River and it has been our national territory. Our Border Guards personnel have been on regular duty of ^Aborder patrol for a long time. The group of the Soviet revisionist betrayers are constantly mobilizing their fully armed troops to interfere with the regular patrol activities of our national Border Guards personnel. The photo shows the Soviet army soldiers kicking our Border Guard soldiers and obstructing our patrolling activities.

Soviet revisionist betrayers: Even if you are showing your teeth against us and opposing us like mad men, you won't be able to hide your real weak and imbecile nature and you cannot escape from the fate of a thorough ruination! The photo shows a wild gang of Soviet revisionists beating our national Border Guards like wild beasts.

Our national Border Guard soldiers sonorously read from the sayings of Chairman Mao to the model soldiers of the Soviet Russian Army telling them the invincible thoughts of Mao Tse Tung. And they are exposing the most evil and non-ethical criminal acts of anti-Chinese activities of the Soviet revisionist betrayers group and the American imperialism.

The model soldiers of the USSR Army are being cheated. Some of them want to know the true story of the situation and they come close themselves to our national Border Guards personnel to talk about it.

ON QI LI QIN ISLAND. The island is situated on the China side of the center line of the main navigation route of the Wu Su Li River and it is the territory of China from the beginning. The photo shows fishermen of the Qi Li Qin Island area, embracing the fatherland in their hearts, keeping their eyes on the outside world, catching fish through the ice in that severe cold.

Soldiers of the Soviet Union, holding sticks in their hands, invaded Qi Li Qin Island, the territory of China

Soviet revisionist betrayers directed the USSR military forces to invade Qi Li Qin Island on January 5, 1968. Their armored vehicles ran over four Chinese fishermen to kill them. Nine fishermen were wounded by kickings and beatings. They brought a bloody incident once again. On January 8, 1968, the Ministry of Foreign Affairs, People's Republic of China, sent a memorandum to the USSR Embassy in China to protest most firmly the government of the Soviet Union. The government of China asked the Soviet Union to give stern punishment for those responsible for the incident and to cease provocative military activities immediately along the Sino-Russian borders and to guarantee that a similar incident will not occur again. The photo shows armored vehicles of the Soviet army driving around Qi Li Qin Island like raging mad wild beasts.

Go Away! You Soviet revisionist betrayers! Qi Li Qin Island is a territory of China. You directed your troops to trample down the territory of China. You ran over Chinese fishermen to kill them. 700 million Chinese people will not condone your acts. The photo shows the heroic people of Qi Li Qin Island in full anger denouncing and protesting the most evil and non-ethical criminal acts of the Soviet revisionists. They are waving red treasure books and carrying public placards with the sayings of Chairman Mao and slogans.

THE GROUP OF THE SOVIET REVISIONIST BETRAYERS MILITARILY INVADED OUR NATIONAL TERRITORY, ZEN BAO ISLAND.

A SKETCH MAP OF THE SINO-SOVIET DEMARCATION LINE (preceding page) AROUND ZEN BAO ISLAND, THE TERRITORY OF CHINA

A. According to the unfair Sino-Russian Treaty of Peking which czarist Russian imperialism forced China to sign in 1860, the Sino-Russian demarcation line between the estuary of Wu Su Li River and southward to Xing Kai Lake is along the course of the Wu Su Li River and Song A Cha River. On the basis of the regulation of the officially recognized international laws, the demarcation line along all international border rivers and streams is the center line of the main navigable route and the title of an island on the river is determined on the basis of this regulation. Zen Bao, Qia Bo Zi and Qi Li Qin islands in this vicinity are situated on the China side of the center line of the main navigation route of Wu Su Li River. They have been under the control of China and there is no room for argument about the fact that those islands are the territory of China.

A full picture of Zen Bao Island. At the beginning, Zen Bao Island was part of Wu Su Li River's bank on the Chinese side and it eroded later to form an island. During the dry season, Zen Bao Island and the bank of Wu Su Li River on the Chinese side become connected by land. The water flow on the west side of the island has never been navigable.

Zen Bao Island is situated on the China side of the center line of the main navigation route of Wu Su Li River. There is no room for argument about the fact that Zen Bao Island is the territory of China, even on the basis of the unfair Sino-Russian Treaty of Peking. In the Sino-Soviet border negotiations of 1964, the Soviet Union had no other choice but to recognize Zen Bao Island as the territory of China.

However, the Soviet revisionist betrayers have many domestic and foreign problems to solve and they are stuck with them. At the same time, they continued invading Zen Bao Island, the territory of China, and agitated militarily. By instigating the people of the USSR with

anti-Chinese sentiments, the Soviet revisionist betrayers are trying to avert the discontent and opposition of the people of the Soviet Union toward their fascist controls. At the same time they fawn upon American imperialism in order to push on with their business of anti-revolution. Ignoring the repeated protests of China, they invaded the Zen Bao Island area 16 times during the freezing period of more than two years between January 23, 1967 and March 2, 1969.

The Soviet revisionist betrayers became more and more crazy and directed large numbers of Border Guard troops to mobilize armored vehicles, trucks and command cars to violently invade Zen Bao Island. They took soldiers of the Chinese Border Guards on patrol duty by surprise and caused an extremely serious bloody incident.

The Soviet revisionist betrayers cannot change their real nature of covetous foreign invasion which is the same as imperialism. Ignoring

repeated warnings and protests of Chinese Border Guard units, they directed the Soviet armed forces to invade the Zen Bao Island area in Chinese territory eight times during the two month period between January and February, 1969.

On January 4, about 30 USSR army personnel in two cars invaded the area of Zen Bao Island and four Chinese Border Goards were wounded and one rifle was forcefully taken away.

On January 6, about 10 soldiers of the USSR Army invaded the area of Zen Bao Island and kidnapped two Chinese people.

On January 23, about 70 Soviet soldiers invaded the area of Zen Bao Island in four cars and one helicopter. They wounded 28 Chinese Border Guards as they were patrolling the border and nine of them were wounded seriously. Nine rifles and 580 rounds of ammunition were forecefully taken.

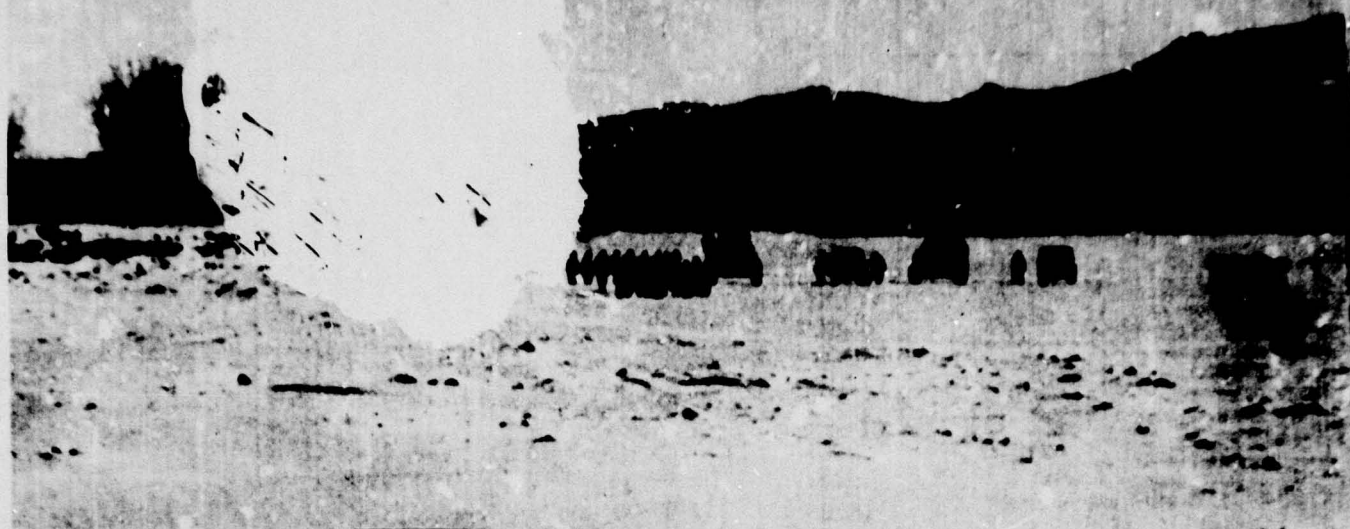

On February 6, about 50 Soviet soldiers invaded the area of Zen Bao Island in an armored vehicle and four cars, militarily provoking.

On February 7, about 30 Soviet soldiers invaded the area of Zen Bao Island in two armored vehicles and one helicopter and threatened Chinese patrol personnel with their machine guns.

On February 16, about 30 Soviet soldiers invaded the area of Zen Bao Island in an armored vehicle, four cars and one helicopter and, surrounding a Chinese patrol guard shouted that they would take action militarily if the Chinese Border Guards continued to patrol the border.

On February 22, a large number of Soviet soldiers invaded the area of Zen Bao Island in two armored vehicles and one helicopter, militarily provoking.

On February 25, a large number of Soviet soldiers invaded the area of Zen Bao Island in cars, militarily provoking.

MAP OF THE SOVIET REVISIONISTS ARMY INVADING THE CHINESE TERRITORY OF ZEN BAO ISLAND.

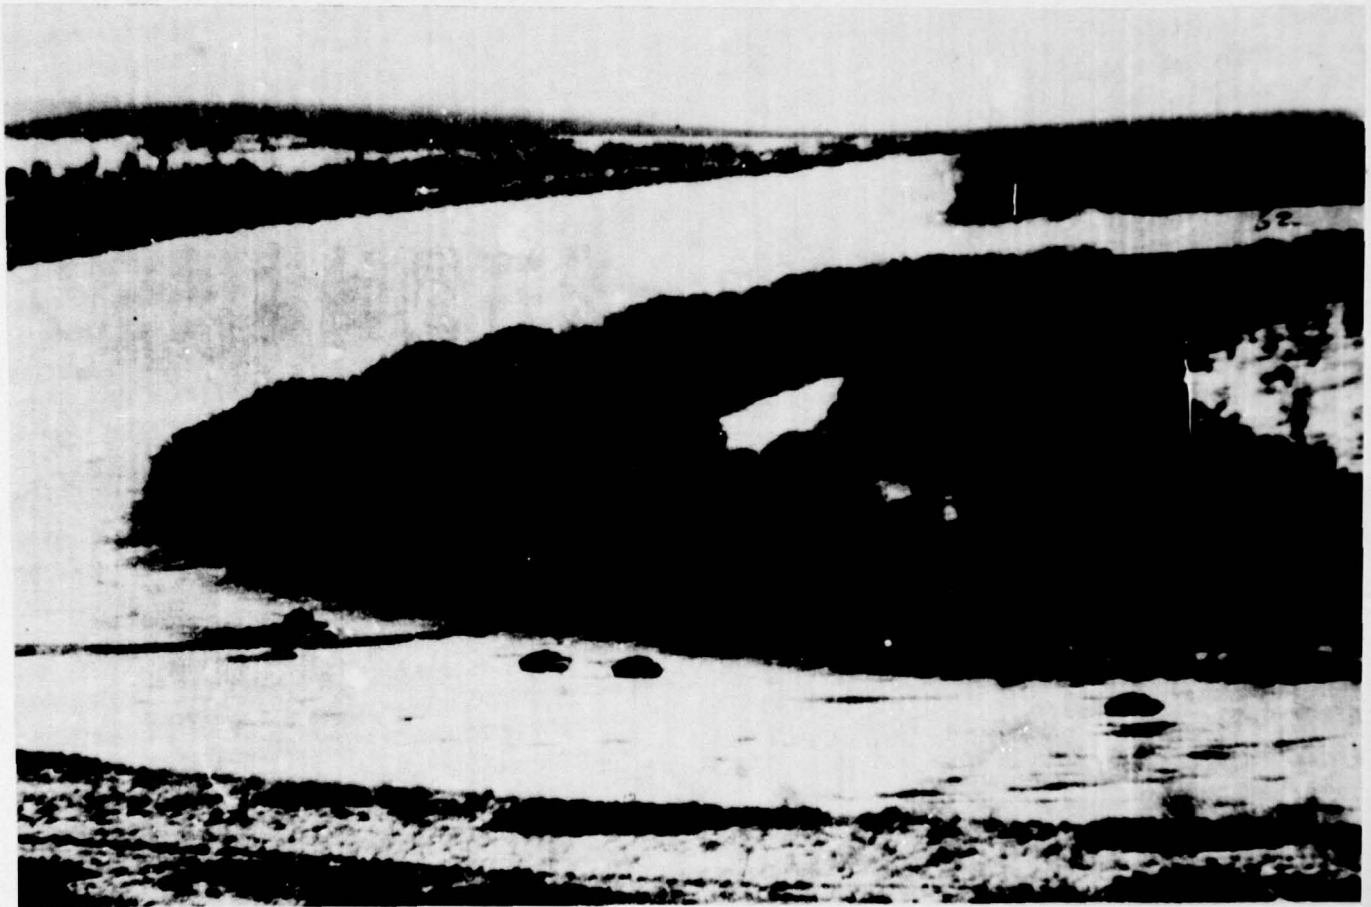

A. In the morning, March 2, 1969, Soviet revisionist betrayers led fully armed soldiers, four armored vehicles and cars from Nijinemi-hairofuka and Kurebiyakinui to invade Zen Bao Island from north and south, taking our Border Guard units on patrol by surprise. They opened fire first and many of our Border Guard soldiers were killed and wounded. Soldiers of our Border Guard units courageously defended themselves by counterattacks and drove the invaders back. The divine and sacred territory of our fatherland has been triumphantly defended.

K. This demarcation line was forced upon China by the czarist Russian imperialism on the basis of the unfair Sino-Russian Treaty of Peking, 1860. In addition to this, the czarist Russian imperialism snatched

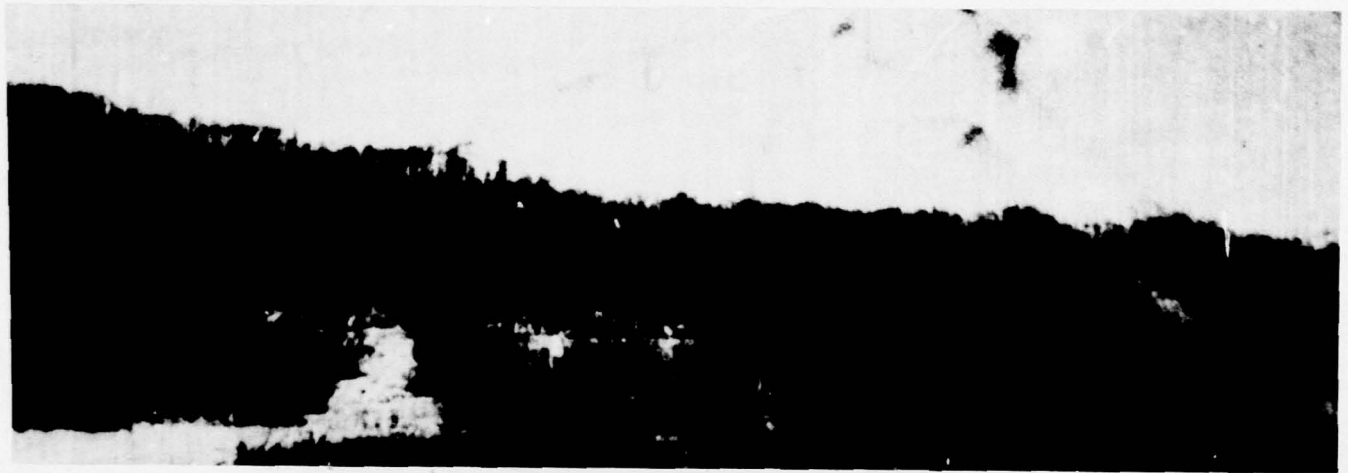

away a large area of Chinese territory east of Wu Su Li River on the basis of the treaty. Even this unfair treaty recognizes Zen Bao Island as a territory of China and there is no room for argument about that fact.

On March 15, the Soviet revisionist betrayers again invaded the Zen Bao Island area of the territory of China by mobilizing 60 or 70 tanks and armored vehicles with a large number of fully armed soldiers. They

first opened fire on the Chinese National Border guards on patrol duty. The photo shows the four tanks which belong to the Soviet armed units having invaded the Chinese water route west of Zen Bao Island.

Soviet revisionist betrayers fully mobilized armed forces and invaded the Zen Bao Island area twice on March 2 and 15, 1969. They first opened fire killing and wounding a number of our National Border Guard soldiers. Our Border Guard soldiers were under an unbearable situation and self-defensive counterattacks were unavoidable and they punished those provocative invaders as a matter of course. They successfully and victoriously defended the divine and sacred territory of our fatherland.

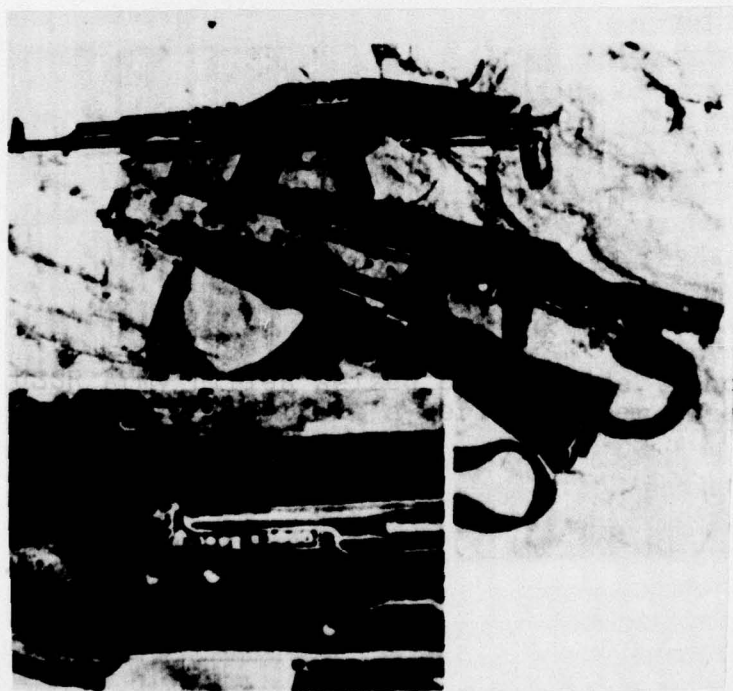

Invading troops of the Soviet Union ran away with their tails between their legs leaving a large quantity of rifles, ammunition, equipment, tools, parts, when our Border Guard soldiers counterattacked in self defense.

Evil gangs of anti-China would never come to a good end. The photo shows our military personnel and civilians surrounding a defeated USSR Army tank. They are very angrily denouncing the Soviet revisionist betrayers who directed their armed forces to commit the most evil and non-ethical criminal act of invading our Zen Bao Island.

As we struggle against ~~the~~ revisionism, we try to study and make use of the thoughts of Mao Tse Tung.

ソ修裏切り者集団の武力侵入は恥ずべき失敗におわった。わが国境守備戦士は、これまでどおり偉大な中国の珍宝島の守備にあたっている。写真は毛沢東思想にみちびかれてソ修侵入者を撃退した経験をしめくくるわが国境守備戦士。

The armed invasion by the Soviet revisionist betrayers resulted in a shameful failure. Our National Border Guard soldiers are carrying on protecting Zen Bao Island of our great China. The photo shows our soldiers who, led by the thoughts of Mao Tse Tung, drove back the Soviet revisionism invaders. They are putting together their experiences by discussing them.

Heroic soldiers of our National Border Guards learned a profound lesson from this battle in which they drove back the Soviet revisionist armed invasion. The Soviet revisionist betrayers are a paper tiger in front of the people of China who "are not afraid of hardship for one and not afraid of death for two", and who are armed with the thoughts of Mao Tse Tung.

英雄的なわが国境守備隊士は、ソ修の武力侵略を撃退した今回の戦闘のなかから、毛沢東思想で武装した「一に苦しみを恐れず、二に死を恐れない」中国人民の前では、ソ修裏切り者集団もハリコの虎にすぎないことを深く知った。

All reactionary groups are paper tigers.

The flame of hate is burning. The most evil and non-ethical criminal acts of the Soviet revisionist betrayers invading our national territory of Zen Bao Island in the grave bloody incidents have met a fierce anger of our several hundred million military personnel and civilian population. Within only several days, a total of 400 million people joined in demonstration marches and protest meetings which fully expressed the steel-like will of the great people of China with the firm decision to defend the fatherland of socialism to the end. Those insane anti-Chinese activities of the group of the Soviet revisionist betrayers cannot damage 700 million people of China even slightly and they cannot thwart the great victory all over the world of Marxism, Leninism and the thoughts of Mao Tse Tung. On the contrary, it only quickens the destruction of this handful of betrayers.

We do not violate anyone who does not violate us; anyone who violates us we surely do likewise". The time for harsh treatment of the Chinese people has gone forever. The people of China and the Chinese Liberation Army, armed with the thoughts of Mao Tse Tung and tempered by the proletarian cultural revolution, are stronger than ever. Anyone who dares to invade our great fatherland surely will be beaten and fall, and will be shattered and smashed.

A large number of military personnel and civilians in Peking joined together for tremendously powerful demonstration marches, fiercely protesting the group of the Soviet revisionist betrayers who directed their military forces to invade our national territory of Zen Bao Island.

"Down with the new czars"! "Down with American imperialism"! "Down with Soviet revisionists"! "There is no good end in the path of evil gangs of Anti-China"! Marchers shouting in anger in front of the Soviet Embassy in China.

A large number of military personnel and civilians in Shanghai, charged with anger toward the enemy, denouncing the most evil and non-ethical criminal acts of the group of the Soviet revisionist betrayers who invaded our national territory.

A large number of armed military personnel and civilians outside Guang Zhou in a demonstration march. A rifle in one hand and a hoe in the other, they pledged to decisively smash the ambition of the Soviet revisionists social imperialism for invasion by fully preparing for the war.
